St. Louis is anxious to have the next National Democratic Convention.

President Harrison has gone to Cape May Point, N. J., to remain five or six weeks.

President Harrison had better give Fred Douglas, the colored Minister to Haiti, "a home run."

TAMMACK says he wants two thousand dollars to help carry the state of Kentucky for the People's Party.

It is rumored in Washington that Mrs. John A. Logan is going to marry George E. Lenoir, the millionaire penny agent.

In 1889 Kentucky produced 112 tons of asphaltum, valued at \$250. In 1890 Breckinridge county alone will produce four times that amount.

In New York city last week four murders were perpetrated, and ten deaths by means of electricity. The work was accomplished in a very short time.

There is still a chance for the newspaper editor in Kentucky. John G. Carlisle was at one time the editor of a newspaper in this state, and we call the Hon. John G. now no small point.

The Elizabethtown News says: "The peach crop on Muldrugh's Hill in that county this year is much better than common. Over a million bushels will be shipped from there this season."

Hos. J. J. McHenry, delegate to the Constitutional Convention, from Ohio county, has announced that he will make a few speeches in the west of the new instrument.

An ex-convict went to Middleborough under the guise of a big capitalist, and swindled parties of that town out of several thousand dollars. His name is Bob Knight and a big reward is offered for his capture.

If a farmer has a piece of land lying along a railroad and the railroad should offer him \$500 per acre for it, it seems nothing but right that he should be allowed to sell it if he chooses to, but the new Constitution says he can't do it.

It isn't altogether becoming in Mr. Strass to charge all who oppose the adoption of the new Constitution with being tools and henchmen of corporations and banks. He tried it on Mr. Rhea, but it didn't work worth a cent.

In the matter of water works. Suppose this town should be fit to build water works, and they are quite likely to do in the near future, and should desire to levy a tax for that purpose, do they not? Not a bit of it under the new Constitution.

They haven't heard much lately from the Republican speakers on the Tate defalcation. The reason is the Democratic leaders speckled the thing in its inception and gave the Republican cause something more interesting to talk about on the stump.

The editor of the Hardinburg Republican thinks the News a little divided on the new Constitution. Well now, if the editor of the Republic will tell us which side of the fence he is on in this legislative race, and why he's there, we'll set up the pins and call it square.

By the recurrence of the trade dollar into standard dollars, the government will make a clear profit of \$600,000. The work will begin at Philadelphia and New Orleans, where there are stored enough of those peculiar coins to make \$1,482,281 of the daddies.

Ten Keystone Bank would and the revolt against the Quaker methods in politics, and the general suspicion which attaches to Quay's management of Pennsylvania politics have encouraged the Democrats in the belief that they would win another victory in that state this fall.

It was reported last week that Secretary Blaine had resigned from the Cabinet. The rumor reached the ears of President Harrison, and he hastened to emphatically deny it. Mr. Blaine is said to be steadily improving at Bar Harbor, where it is denied that he has bright's disease or any other kidney complaint.

H. C. Tammack, chairman of the National Committee of the People's Party, has recently been in Frankfort, and given it out that his party is all right here and that they will get an unusually large vote in the state in August. Tammack knows a little more about this probably than a Sybil pup would a hunting possum in a persimmon patch, and yet he is mighty off in his reckoning.

When the untimely death of Aug. untamack and the People's Party will get badly left in old Kentucky is our guess.

The juvenile fraternity were given a party evening. Ice cream, cakes and candy were served at 3 o'clock, and the little folks all went away happy and well pleased.

The Ellipse Gas & Mineral Company is in the bank building Monday evening and made another call on the stockholders for funds. The well is now four hundred feet deep. Enough water has been raised to go down another hundred feet. The indications for gas are better than they have ever been.

The political bias born in this county three months ago, still clings to you for awhile and gave its admirers reason to hope for its speedy maturity, is now sick and we fear "sick unto death."

For some time its parents and intimate friends have been wondering if it was healthy, and it is now considered past the aid of the local physicians. Dr. Geo. Mercer, when his hope began to fail, called the assistance of Dr. J. T. Wheeler and for awhile hope revived. But death seemed inevitable, and as a last resort Dr. Lee Rhodes, of Texas, was summoned. What his treatment will be is not yet known, but it is safe to presume that Dr. Wheeler will be retained as wet-nurse, Mercer will keep record of the circulation and temperature, while G. P. Jolly will endeavor to supplement the present regimen with a Republican soup flavored with Texas cattle. The future of the babe is a matter of conjecture, as the weather from now until August is very unfavorable for infants subject to cholera infantum. Late the sad discovery has been made that the infant is blind, a condition not unusual in premature births.

The large crowd of people that assembled here on the 4th, demonstrated pretty clearly that a crowd could be brought to Hardinburg just as well as to any other point when we offer them any inducements. It is because we have all along been too slow in starting anything and being just a little behind other towns that we've got left. Over seven hundred people came in here on the trains Saturday and as many more in the stage and on horse back. The crowd was well pleased with the day's proceedings, and everything went off as well as could be expected.

Out of the whole crowd, Yet every man you met was having a good time and spending his money freely. Several

hundred dollars were dropped here in consequence of the day's doings, and somebody is ahead by it. They came here to spend their money and a little was dropped among all hands. Such a day and such a crowd will always benefit a town, and Hardinburg is as capable of drawing it as any of them if you can just get a move on her.

Mr. Severs, in his speech at Irvington, made the statement that Wm. A. Allen of Meade county, had been solicited by Lee Labor Organization in that county to make the race for the Legislature as a Democrat. This was denied by Dr. Harned at Webster the next day and to sustain his position he read a letter from Mr. Powell of Meade county to the same effect. Mr. Severs wrote to Mr. Allen on the subject and below is his letter given in full:

"This is to certify that I, Wm. A. Allen, was solicited to make the race for the Legislature by a Committee organized for that purpose, by the Labor Organization of Meade county. Said Committee came upon me and requested me to make the race as a Democrat in the next election. The reason they wanted me to make the race was because I was a Democrat." Signed, Wm. A. ALLEN.

Attest: Len Cashman, July 11th, 1891.

Mr. Severs gives as a reason for publishing this matter that he told his friends in the state that he would make a statement that he could not substantiate by the proof.

It is False.

ENTRUS NEWS.—Sir having heard a report that he being circled in a county that Henry Harned had wrongfully obtained some money that was coming to me for work I done on the allotment at the North Fort bridge and believing the same to be done as a betwixt money scheme, I hereby denounce the same and say it is false. Mr. Harned paid me all asked him for a debt I held against C. L. Corwell and settled the same in full with me, and in all my dealings with Mr. Harned I have found him to be straight and honest.

## LOCAL BRIEVITIES.

Smoke the World cigar.  
Mrs. Thos. J. Adkinson, of Irvington, has typhoid fever.

Mr. R. B. Pierce has put up an iron fence in front of his residence.

Cloverport precinct is alright and will roll up her usual Democratic majority.

The new brick and terra cotta plant is getting its affairs in shape to begin operations.

The worst cases of scrofula, salt rheum and other diseases of the blood, are cured by Hood's Sarsaparilla.

What is the matter with "Little South Carolina"? She certainly won't go back on her record as the banner Democratic precinct in the county.

Mr. John K. Ditto, of Brandenburg, was the unfortunate holder of \$1,200 worth of stock in the defunct Falls City bank.

The enterprising ladies of the Baptist church, of this city, will give an ice cream supper in Mr. Alfred Oels's yard to-morrow night. All are cordially invited to attend.

Mr. J. B. Board, of Rosetta, and Mrs. Calhoun Hawkins of Hill's Run, went to Elizabethtown Monday, as delegates to the District meeting of the F. and L. U., held in that city yesterday.

The Cloverport Type Line Co., hereby notifies its customers who are in arrears that unless bills are paid at once gas will no longer be supplied them. This notice may be considered final.

Boyd Bros., Irvington, will soon have their elevator ready for receiving wheat. There are very few, if any, more enterprising firms in this county than the Boyd Bros. They are expending lots of money in buildings and machinery, and deserve a liberal patronage.

The semi-annual statements of the Breckenridge Bank of this city, and the Bank of Hardinsburg, appear in this issue. They both make splendid showings of their business, the latter, for a new bank especially, makes a good showing both in deposits and earnings. With two such splendid and well-managed banks in our county we can have no fears about our finances.

Encouraging reports come in from all over the county as to the success of the Democratic ticket in August. While there are some disaffections in one or two precincts, in others they determine on the Democratic is stronger and upon the whole we think there is no cause for alarm. But we advise Democrats every where to be on the alert and do their duty. Stand together as one man and the victory is ours.

## Col. Walter Evans on the New Constitution.

Col. Walter Evans, of Louisville, upon the invitation of a number of our citizens, addressed a good audience in Fisher's Hall on yesterday afternoon in opposition to the adoption of the new Constitution.

His speech was a calm, dispassionate, logical and forcible argument, and the effect of it was marked. His audience was composed of men who came to hear, learn and determine and many went away with their minds formed not to trust the dangerous experimental document.

Below we give a synopsis of his argument:

He mentioned in gratified terms his invitation to speak in Cloverport, and stated that having no other than a citizen's interest in the great question of a change in the organic law of the State, he preferred only to speak where there had been some expression of a desire to have him speak. He thought the question involved was altogether non-partisan in character, and should be discussed with calm temper, and with a view to ascertaining what was best for the people of the State. He commended the action of the Democratic party in not treating it as a partisan question, and regretted that the Republican party had, in recommending it to the voters of the State, incurred the risk of creating a division where there should be union, as it could not be expected that men in the habit of forming their conclusions upon such issues could change them simply upon a mere recommendation of a party convention called for other purposes altogether.

He argued that changes in a Constitution should be slowly made, and only to correct real evils or to meet real emergencies. He quoted a remark of Judge Story in his commentaries on the Constitution of the United States, wherein, in speaking of the men who framed that Constitution, he said: "They knew that the besetting sin of Republics was restlessness of temperance and a spirit of deserting at slight evils." He stated his conviction that the proposed Constitution was largely made up, in so far as it was new, from the suggestions of discontented selfish egotists. He spoke of the "Aid Social" was held at Judge Woolfolk's Friday evening.
